No. 1-A.

AN ACT

Making an appropriation for disaster relief to the State Council of Civil Defense in connection with the flood damage of January, 1959.

Whereas, in January, 1959, there occurred a catastrophic flooding of underground mines in Luzerne County in the area east of the Susquehanna River, and floods and high water in other areas of the Commonwealth where the danger of floods has historically been imminent; and

Whereas, twelve mine workers in one flooded area are missing and immediate measures are necessary to effect rescue operations for these men; and

Whereas, these floods have endangered the homes, factories, schools, churches and commercial establishments located in these areas because of the possibility of surface subsidence; and

Whereas, the floods have created a condition of grave danger to the safety and to the lives of citizens in these areas because of potential gas formations and subsidence, the extent of which is yet to be determined; and

Whereas, the above conditions have resulted in economic dislocation of large numbers of people in these areas, including the temporary, and the prospect of permanent unemployment of many citizens; and

Whereas, the widespread unemployment will have severe impact upon the status of the Unemployment Compensation Fund of the Commonwealth; and

Whereas, the Governor of the Commonwealth and the President of the United States have declared that a state of emergency exists in these areas:

Now, therefore, in order to effect rescue operations, to alleviate human misery and economic hardship, to prevent the spreading and provide measures that will reduce the hazards from these disastrous floods, and to protect the health, safety and property of the citizens of the Commonwealth.

The General Assembly of the Commonwealth of Pennsylvania hereby enacts, as follows:

Section 1. The Department of Mines and Mineral Industries shall—

(a) conduct rescue operations;
