

Section 10. No part of the appropriations made by this act shall be used to pay for hospital or institutional care or training at rates in excess of those charged to the general public for the same care and services: *Provided, however, That a hospital can be paid at a rate per day for in-patient care and a rate per visit for out-patient care not greater than the hospital's average cost for each class of care as determined annually by the Auditor General on the basis of certified fiscal reports submitted by hospitals and approved by the Auditor General.*

Section 7. This act shall take effect immediately.

APPROVED—The 4th day of February, A. D. 1960, except as to the following item:

To the State Council of Education for paying in the manner provided for payments from the State School Fund a part of the costs of repairs and/or alterations to local public school buildings or buildings used by state teachers' colleges which repairs and/or alterations are necessary to satisfy fire and safety standards or requirements and which are required by order of the Department of Labor and Industry or in those cases in which the Department of Labor and Industry does not have jurisdiction then by order of another governmental body of competent jurisdiction empowered by law to enforce such orders including cities of the first class, cities of the second class and cities of the second class A \$5,000,000

I withhold my approval from this item because the official revenue estimates for the 1959-61 biennium do not provide sufficient monies in the General Fund for me to constitutionally approve this item.
